

**Feb 4 Class 1.** Oils. 12 X 16 inches. This will be a night scene with warm cozy lights turned on in the buildings.  
Grid Drawing (Each square is 2 X 2 inches)

You can draw your outline using the grid option on page 1 or printout the template and transfer it by tracing

[Download printable template PDF](#)

**Do not try to print the template from your browser. You need the free Adobe Acrobat Reader to use the “poster” print option.**

<https://acrobat.adobe.com/us/en/products/pdf-reader.html?promoid=KSNE>

To print the template Click on Print, then change the setting to “Poster” under Page Sizing and Handling in The PDF program. It will print the image out exactly in proportion. To transfer the image onto your canvas or paper, you can place transfer paper (For sale at any art store) under the printer drawing once you have taped the 4 sections together.

Because of the printer margins, you will have to trim off a thin portion at all four sides of each page. If you are doing a watercolor, do not use transfer paper. It is impossible to erase the drawing. Instead, spread dark gray pastel on back of the 4 sections and use that as carbon paper.
